Intro

We envision a future where AI and humans collaborate to achieve unparalleled performance and innovation. With a conversational, personable, and knowledgeable voice, we share expertise grounded in data. Our brand book ensures consistency in how we express our identity, uniting all visual assets.

Tone of voice

Our transactional document automation platform delivers unmatched productivity & accuracy for enterprise businesses. We automate document processing end to end, protecting companies from document-based risk, improving relationships with business partners, and unlocking strategic insights to fuel business transformation.

We dream of a future where the collaboration between AI and humans delivers unparalleled performance, creativity, and innovation.

Brand voice

Human, inspiring, accessible, precise, trustworthy

Target audience

Leaders looking for maximum productivity & efficiency

Our mission

We are obsessed with building AI-first, cloud-native technologies that enable one person to effortlessly process one million transactions from start to finish.

Elevator pitch

Unlike other IDP platforms, Rossum automates your entire transactional document process end to end, from reading and answering emails to document approvals.

Our specialized AI handles millions of complex documents, acting as a cloud platform that connects seamlessly with your business partners.

We involve humans and technology where they bring the most business value, for maximum return on automation. Built for real-world enterprise needs, Rossum continuously adapts and integrates with your IT system.

01

AI-first & cloud-native

Benefit from the next generation of AI technology, trained on the world's largest transactional document dataset.

02

End-to-end automation

Orchestrate the transactional process end to end, from document understanding to workflows & communication, extensions & integrations, and reporting & insights.

03

We work ~~for~~ with you

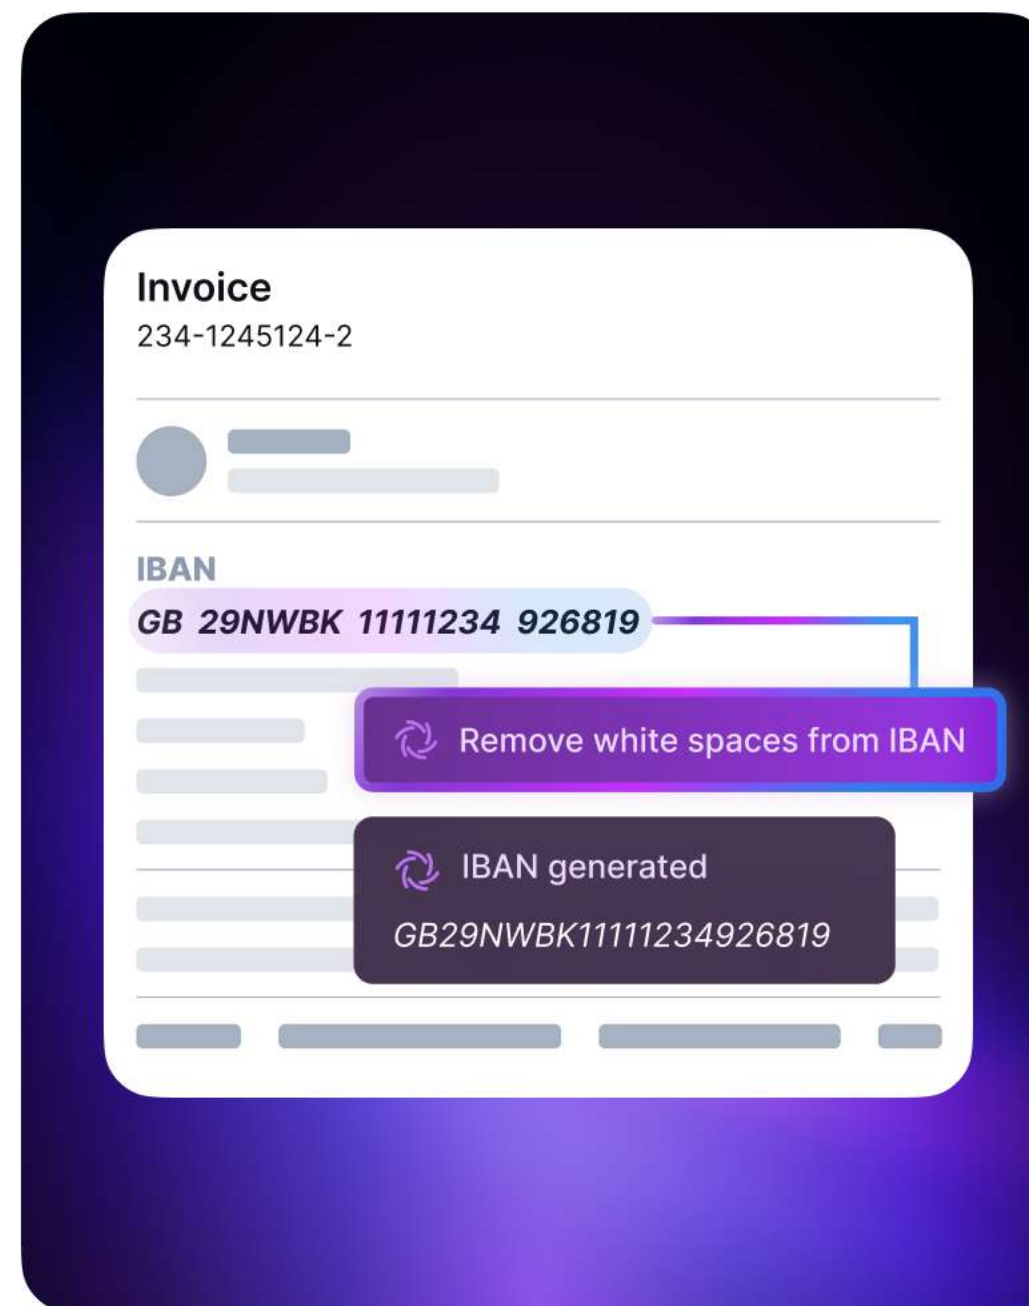

We involve humans and technology where they bring the most business value, for maximum return on automation.

Automate your transactional workflows

AI-first, cloud-native platform that will
automate your entire transactional document
process end to end.

Graphic foundations

Our graphic foundations define the core visual elements that shape Rossum's identity. From colors and typography to layouts and patterns, these elements ensure consistency and clarity across all touchpoints, creating a cohesive and recognizable brand experience.

Logo/ Wordmark

Rossum's wordmark is the most recognizable visual element of our company, epitomizing our brand's identity. We've designed four main variants to ensure legibility across all mediums. These variants are crafted to adapt seamlessly to different contexts, preserving the clarity and impact of our visual signature.

Wordmark don'ts

Ensure the integrity of our wordmark by maintaining its original design across all mediums. Avoid any alterations, such as stretching, changing colors, or applying unauthorized effects, as these will compromise its recognizability and consistency. Preserving the wordmark's original form is essential to upholding our brand's identity and ensuring its consistent representation.

Do not change the colour of the symbol

Do not stretch and alter our logo in any way

Do not change the size of position of the symbol

Do not use our logo on busy backgrounds or patterns

Symbol

Symbol

Our circle symbol is an abbreviation of our logo, and represents unity.

It's used in internal communication, social media cover images, our favicon, etc., where space is limited.

Primary typeface

We use Inter as our primary typeface for its modern, clean, and highly legible design, perfectly suited to digital-first applications. Its versatility and clarity make it an excellent choice for creating a professional and approachable brand identity, ensuring that all communication is accessible and easy to read across platforms. Inter's geometric and neutral style complements our brand's focus on precision and innovation.

Primary color palette

Our primary color palette, while deliberately limited, serves as the foundation for consistency across our designs. These core colors act as the grounding elements that unify our diverse creations, functioning effectively as accent colors. This strategic limitation ensures that our designs maintain a cohesive identity, allowing for instant recognition and a strong brand presence. Through these carefully chosen hues, we establish a visual language that both distinguishes and connects our various outputs.

Pantone 294 C

Black
#0D1117
C:82 M:72 Y:59 K:78
Pantone Black 6 C

Secondary color palette

Our secondary color palette enhances our design options, offering more variety and flexibility. It works alongside our primary colors to create a bold and dynamic look, adding energy and excitement to our designs. This selection is designed to connect with our audience on an emotional level, improving the user experience and strengthening our brand's identity.

Icons

We use Tabler Icons that are a comprehensive, versatile icon library crafted for seamless integration into modern UI design. Tabler Icons fully support Figma component color and stroke overrides, adapting effortlessly to any style.

Gradients

Image gradients

We use pre-made abstract gradients for most of our GTM materials. This set of gradients is leveraged to show modernity and fluidity of the Rossum brand.

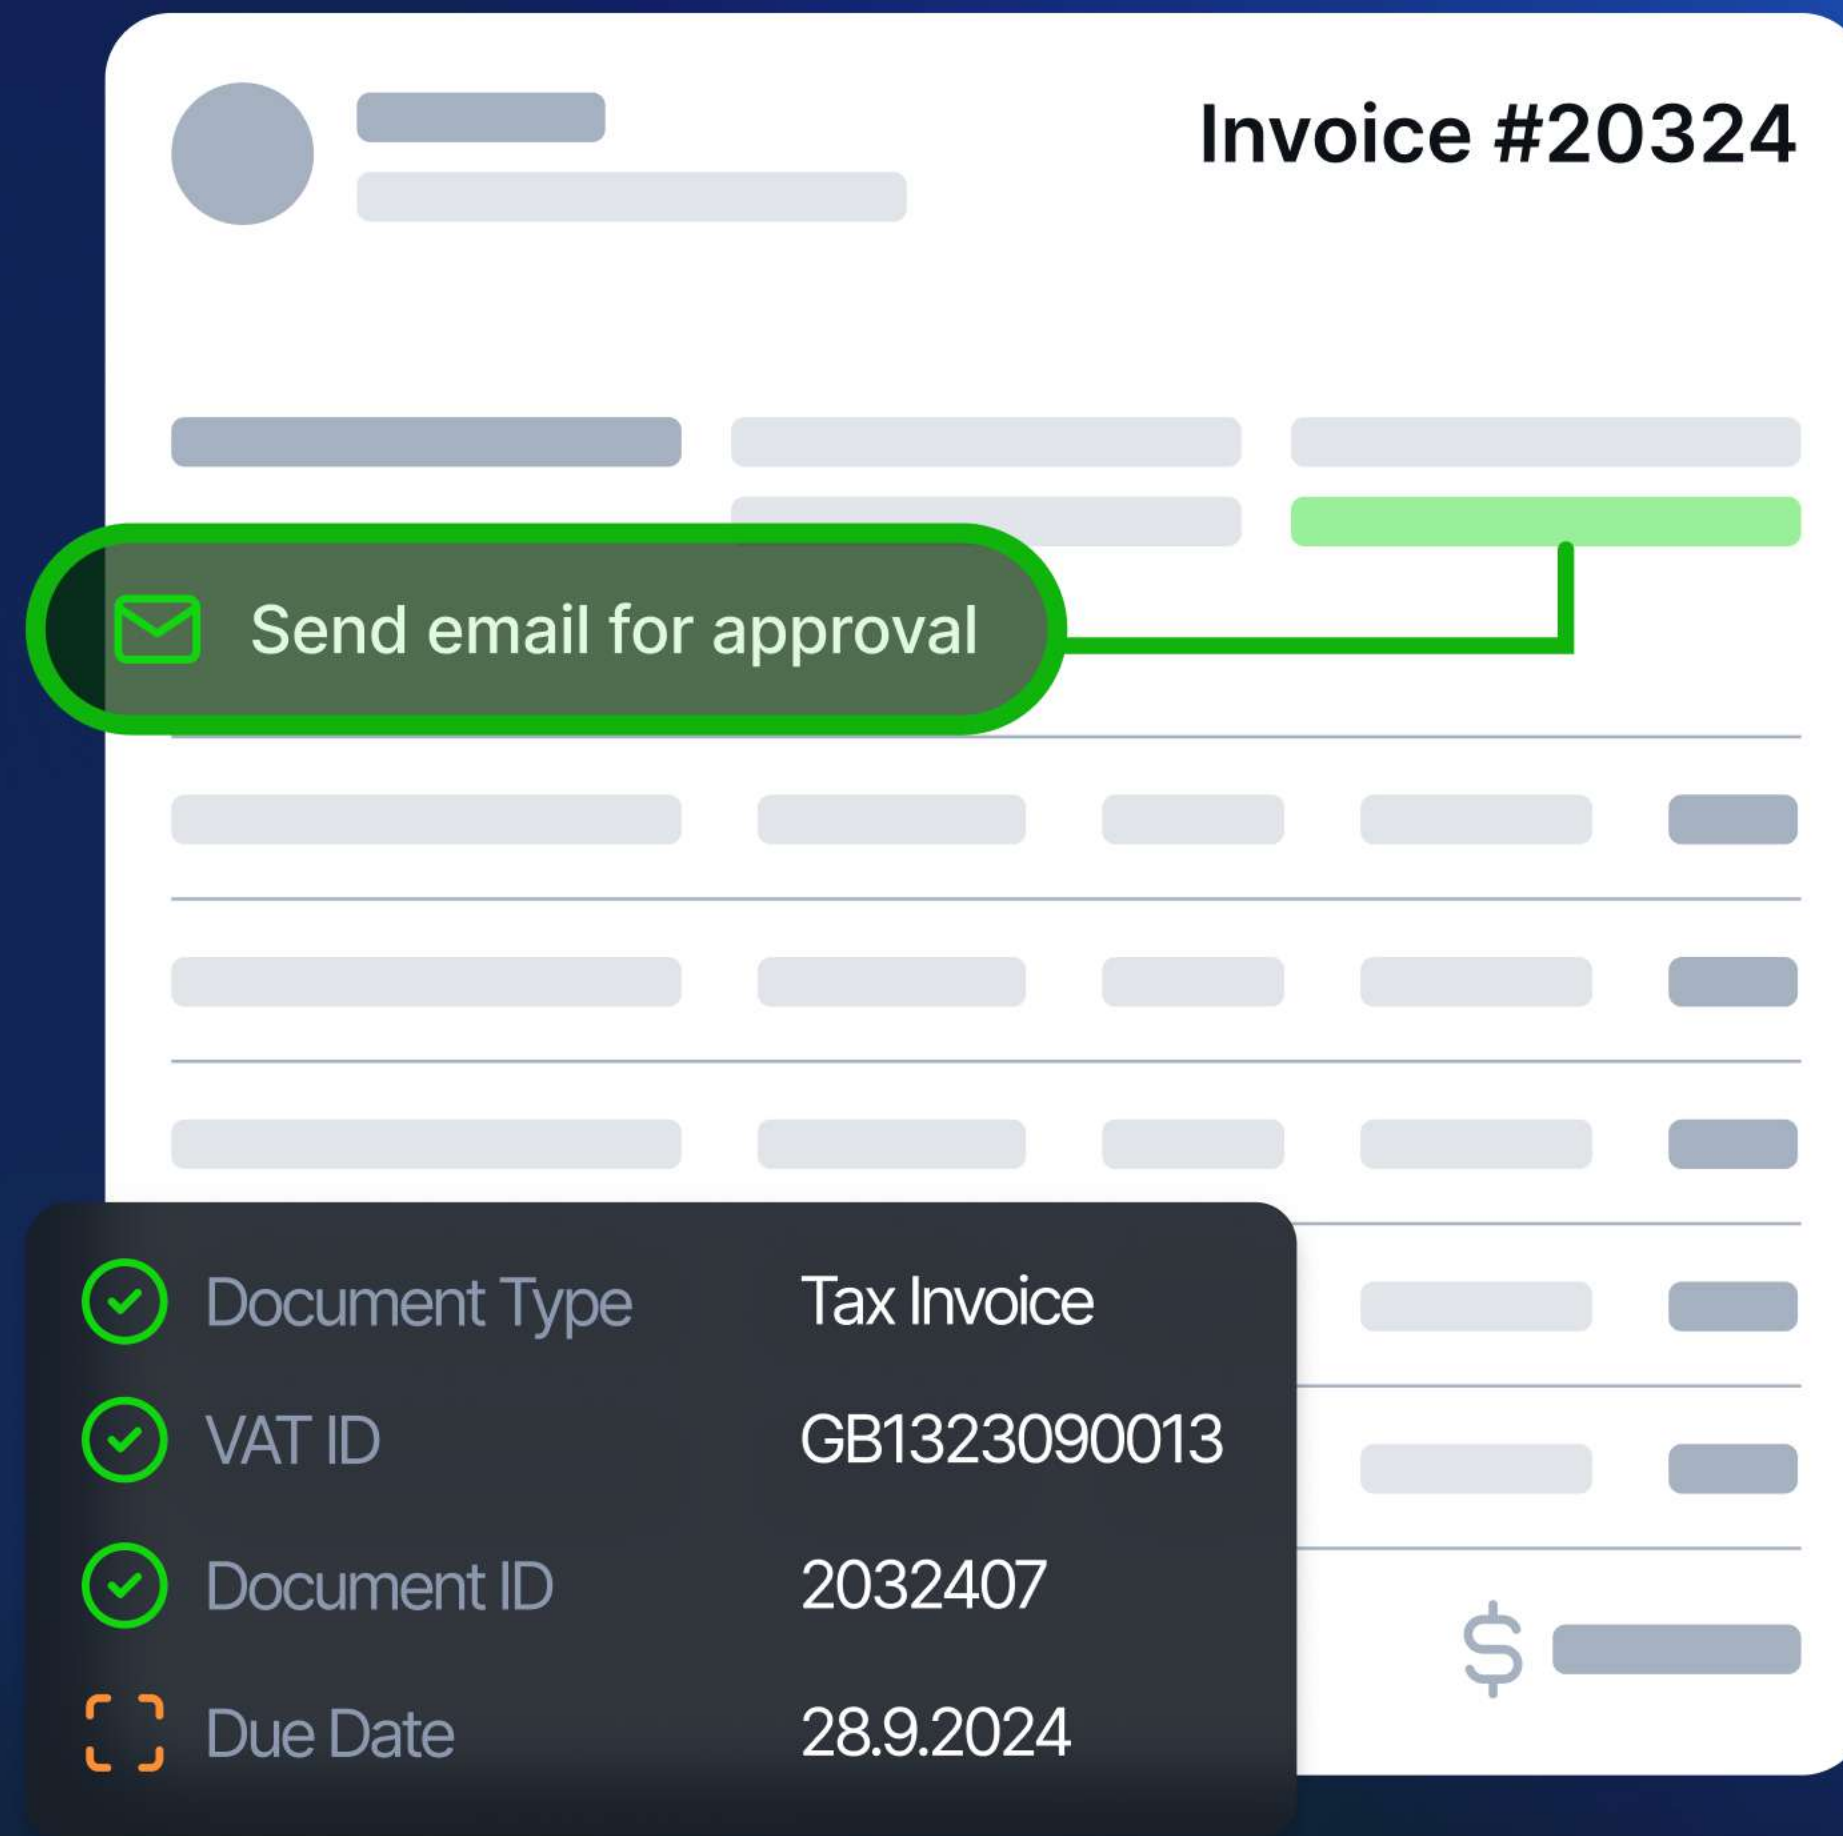

Photography

Photography

Illustrative graphics are used primarily across our website to display our platform features. Designed to provide a clear illustration of a specific feature.

Photographs are secondary images used on our website and blog to humanize our brand and provide eye contact.

UI elements

We use graphically edited UI to represent real look and feel of our product in marketing materials. When showcasing our platform in UI, we aim to keep the UI in 1:1 container for easier export into other channels. You can combine light and dark background if applicable.

ROSSUM

Deck

Our deck is more than a presentation—it’s a cohesive story that embodies our brand’s vision and values. Designed for clarity, engagement, and impact, it seamlessly integrates visuals, content, and messaging to captivate audiences and communicate ideas effectively.

Every element of the deck is purpose-driven, from its clean layout to its consistent design language. It’s a versatile tool that adapts to various needs while maintaining a professional and polished appearance. With our deck, we ensure that every presentation leaves a lasting impression.

Email signatures

Our email signatures are a subtle but powerful extension of our brand. They combine professionalism, clarity, and consistency.

Designed with simplicity in mind, our signatures include essential contact details and branding elements that reinforce our identity. They are clean, modern, and aligned with our visual style, ensuring that every communication reflects the professionalism and reliability of our brand.

Your feedback is invaluable to us. After testing Rossum Aurora for a couple of weeks, we would appreciate it if you could provide your insights and suggestions on how it is working for you.

At Rossum we are dedicated to making this transition as smooth as possible and ensuring that Rossum Aurora meets your needs.

Thank you for your attention and cooperation.

Best regards,

Kateřina Budáčová

Senior Talent Acquisition Partner
katerina.budacova@rossum.ai

Hello everyone,

Today's message will be short and sweet because, let's be real, I need to keep a few tricks up my sleeve for the Allhands meeting next week ;-)

Huge thanks to all of you for your hard work! At the same time, we recognize that the best way to show our appreciation is by minimizing those last-minute hectic surprises. We've already invested time in learning from this experience, and we're on the lookout for systemic solutions to better prioritize our competing priorities in a sustainable way.

Thank you all

Tomas Gogar

CEO & Co-Founder
tomas.gogar@rossum.ai

Partner logo

The partner logo ensures consistency when showcasing partners, clients, and integrations.

Partner

Rossum's partner logo

Our partner logo shares Rossum's primary color palette.

The image shows a large, light blue rectangular area containing the Rossum Partner logo. The logo consists of the word "ROSSUM" in a bold, dark blue sans-serif font, with the letter "O" replaced by a blue circle. Below "ROSSUM" is the word "PARTNER" in a smaller, dark blue sans-serif font, with wide letter spacing.

ROSSUM
P A R T N E R

ROSSUM

Rossum's partner logo

We have developed four logo variants to optimize visibility and consistency on different background colors. Here's how to use them:

1. Light backgrounds: Use the standard logo variant for light or white backgrounds to ensure the logo stands out clearly.
2. Dark backgrounds: Opt for the reverse-color variant on dark backgrounds to maintain legibility and impact.
3. Busy or patterned backgrounds, use the solid background logo variant with a defining border. This should be **very limited** to cases where clarity is essential.

Partner

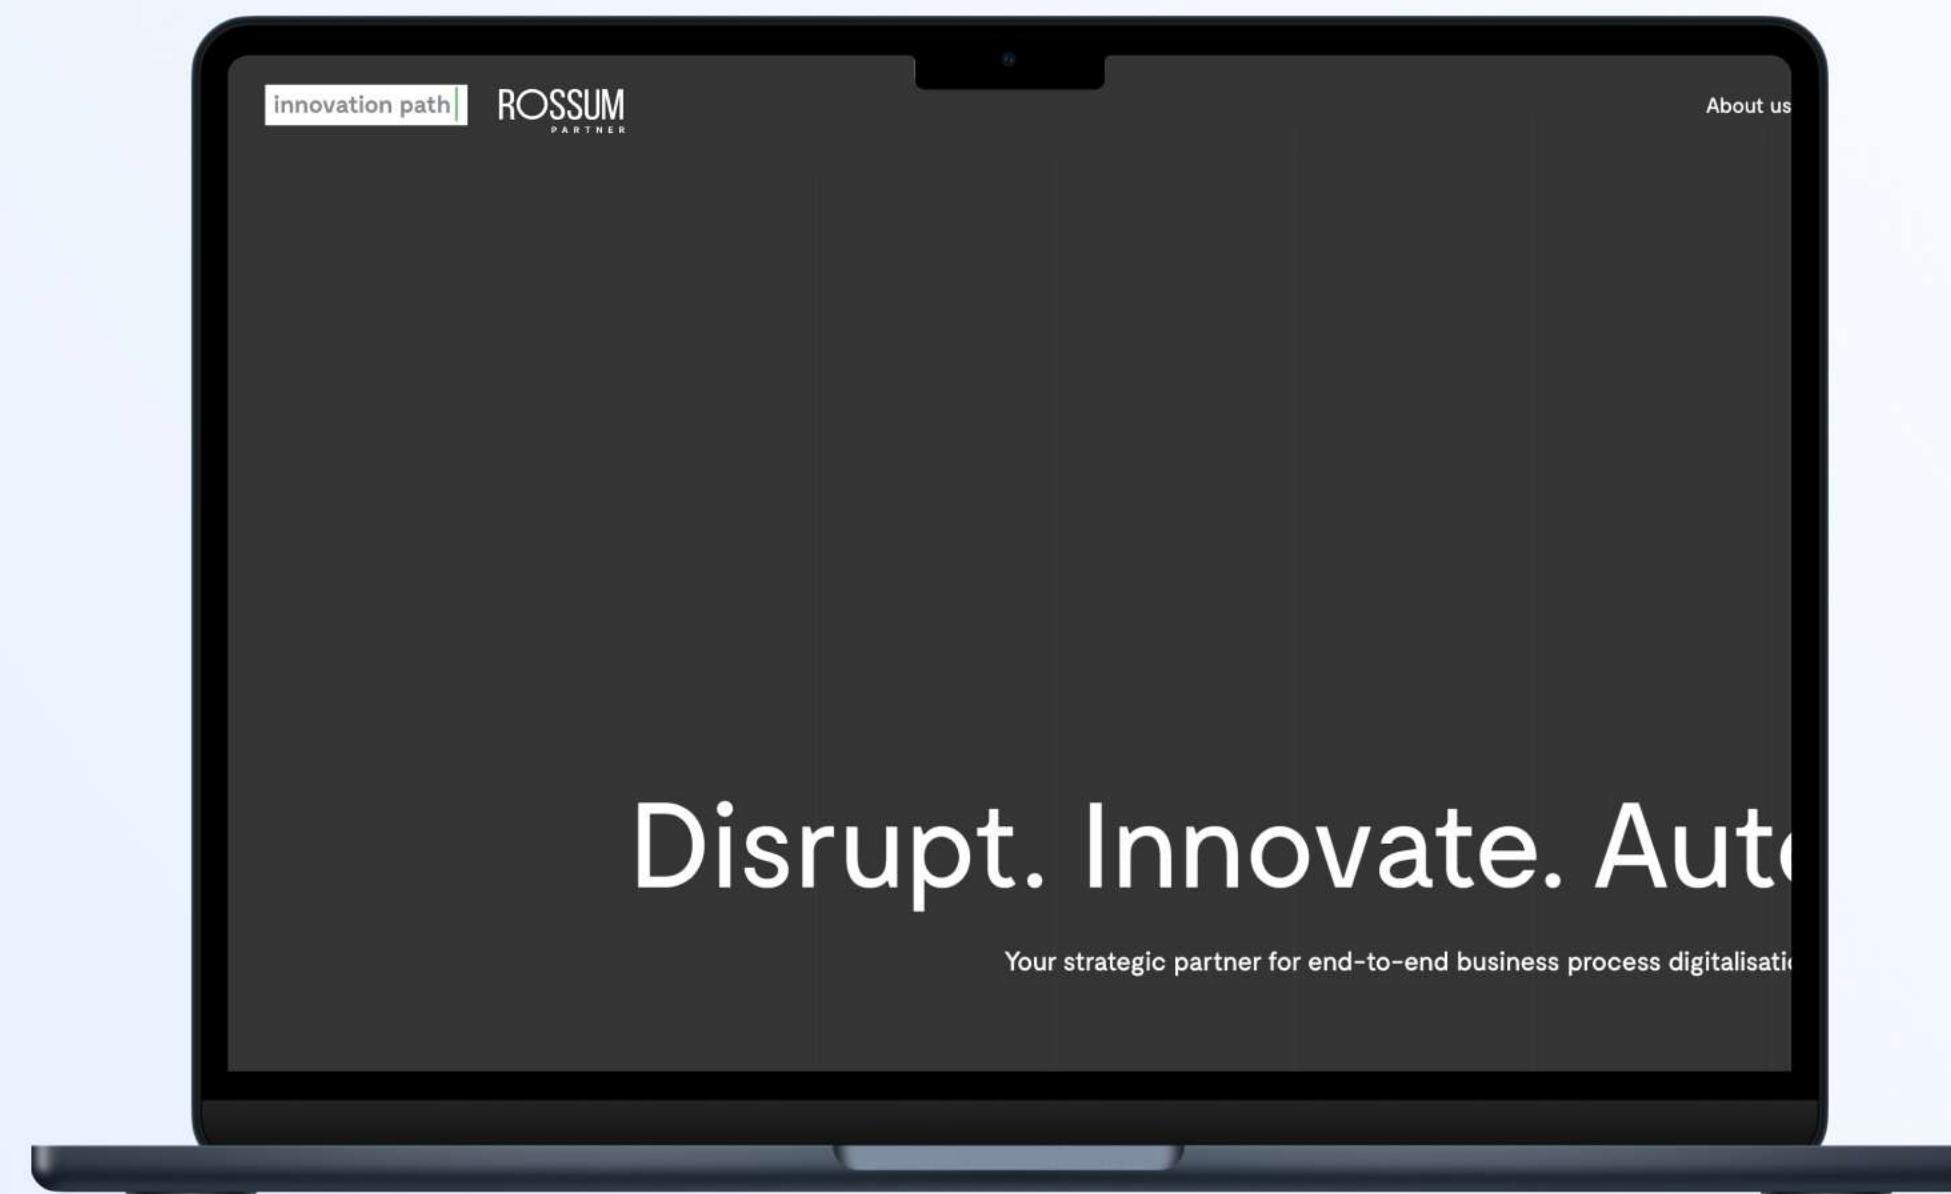

Rossum's partner logo placement

Partner's should never use their logos on top of our isolation grid. Both logos should be centred and scaled proportionally.

ROSSUM

innovation path

ROSSUM
PARTNER

Don'ts

Avoid changing, overstepping, in any shape or form the design of our partner logo.

Thank you!
