PRODUCTIVITY

100%

COUPA-NATIVE
INTEGRATION

Automate the most complex AP tasks

Achieving 98% accuracy, Rossum automates high-touch tasks and validates data against Coupa objects before the P2P cycle, speeding up workflows and improving data consistency.

- **Boost AP productivity by 10x** with touchless processing
- **Enforce custom business rules** and validate against Coupa fields
- **Automate** non-PO processing, multi-line PO matching, and GL/tax coding

Supercharge your Coupa investment

Reconcile supplier statements in seconds. Stop chasing missing invoices. Automate supplier statement reconciliation against Coupa records to identify paid, pending, or disputed items instantly. Close the loop with automated reporting and one-click supplier communication.

Extend Coupa's power to every invoice

Process every invoice format in any language from any channel, all within the familiar Coupa environment. Rossum's proprietary, template-free AI understands the layout and semantics of any document.

- ✓ **ANY INVOICE FORMAT OR LAYOUT IN 276 LANGUAGES**
- ✓ **COMPLIANT E-INVOICING SOLUTION**
- ✓ **NO TEMPLATES NEEDED**
- ✓ **EXTRACTS COMPLEX LINE ITEMS AND BUSINESS-SPECIFIC DATA**

Trusted by the most innovative AP and procurement teams around the world
